

Spread across 312 acres at the pharma SEZ in Panoli, Gujarat, JB SEZ is being developed by HBS Realtors and the J.B. Mody group, and headed by **Kayvanna Shah** as its CEO. With investment partner IL&FS on board, the project has achieved 100 per cent

closure and is now in discussion with pharma companies to set up shop. It is India's first pharma SEZ to offer facilities on a par with MNC pharmas. Also, all relevant tax incentives are applicable here too. The SEZ is strategically located and easily accessible, with good connectivity by road, rail, port and airport. "The SEZ has a dedicated infrastructure zone, housing, water and effluent treatment, captive power plant and gas supply. There is rainwater harvesting, solar power, recycling of water and ample landscaping to make conducive to green/eco-friendly environment," says Shah. ♦
